

**PRESS RELEASE  
FOR IMMEDIATE RELEASE**

**Valutek Announces Convenient Color-Coded Packaging System**  
*All vacuum-sealed product comes in easy-to-identify boxes*

**PHOENIX (FEBRUARY 2011)** — With ever-growing demands on cleanroom managers to do more with less time and fewer resources, ordering products and managing inventory needs to be as simple and convenient as possible.

That's why Valutek offers color-coded product ordering and clearly marked packaging to identify levels of cleanroom environment the product is suited for: Micro, Macro or Nano.

To further take the pain out of purchasing cleanroom consumables such as apparel, gloves and facemasks, Valutek products are vacuum-sealed to reduce the risk of contamination during shipment. The sealed product is also lighter and smaller, reducing shipping costs and allowing cleanrooms to stock even more product.

**Easy Product Identification**

You may have noticed Valutek's colorful logo. It's not only eye-catching but includes all eight color-coded product categories:

- Blue – Gloves
- Lime – Glove Liners
- Yellow – Cleaning & Maintenance
- Mustard – Adhesive Mats
- Maroon – Documentation
- Red – Wipers
- Green – Apparel
- Purple – ESD Compliant Fingercots, Shoecovers, Wipers and More

When browsing Valutek's catalog or Web site, you can easily click on or flip to the product category you need.

**Vacuum Sealed and Packaged With Class-Appropriate Labels**

Once you've ordered your Valutek products, they are vacuum-sealed to ensure the highest level of protection against contamination during transit. The products are then placed in boxes with convenient and highly visible coding to identify which cleanroom environment they belong in:

- Gray Label – MarcoTek: ISO 7+ (Class 10,000+)
- Blue Label – MicroTek: ISO 5-6 (Class 100-1,000)
- Full Color Label – NanoTek: ISO 3-4 (Class 1-10)

The boxes are then sealed with anti-counterfeit tape.

INNOVATIVE SOLUTIONS FOR  
CRITICAL ENVIRONMENTS

“We know you’re trying to run your cleanroom at the highest level of efficiency possible,” says Valutek CEO Greg Heiland. “By creating a streamlined and simple method for ordering and stocking your critical environment products, reducing the chances of introducing contaminants into the cleanroom and lowering the overall cost of managing your inventory, we can save you time and money.”
