

PRESS RELEASE

Valutek Launches Valutek Asia Sdn. Bhd.

Phoenix, Arizona – (WiredPRNews.com) – Valutek is kicking off the New Year by expanding its footprint in Asia. Since 2006, Valutek has maintained a dedicated site in Malaysia. That office, headed by Terrance D’Angelus, managed Valutek’s supply chain, logistics, and quality control activities. Beginning in 2011, Valutek will expand its presence in Asia by opening Valutek Asia.

Valutek Asia will offer the full line of Valutek branded cleanroom consumable products directly into the Asia market and will operate two state-of-the-art Consolidation Centers to serve both Asian and North America customers. Clients will have real time access via their custom catalog website portal to access Valutek inventory in China, Malaysia, and North America. Terrance D’Angelus will be the General Manager of Valutek Asia and head up Business Development activities. Bravy Zhang will manage sales in China.

Many of Valutek’s clients are multinational manufacturers with operations in both North America and Asia. Valutek Asia will make it possible for Valutek to better meet the specific needs of its global clients by offering one price for all their cleanroom consumables. In addition, Asian based high-tech companies will now be able to take advantage of Valutek’s unique business model and value proposition. Since its inception Valutek is the only company that offers all core cleanroom products under one brand. High-tech firms will be able to procure their cleanroom wipers, gloves, apparel, adhesive mats, maintenance, documentation, and ESD from a single source at the lowest total acquisition cost.

Valutek Asia will operate two Asian Distribution Centers, one located in Penang, Malaysia and the other in Suzhou, China. The Distribution Centers will make it possible for Asian companies to buy locally at local prices and have the product shipped directly to their Asian facilities. This will provide greater product availability and lower costs to Valutek Asia clients. The Distribution Centers will also be shipping products weekly to North America in consolidated containers. This enhanced supply chain will reduce the transit time of delivering Valutek material from our factory floor to our client’s door. Valutek has been servicing the cleanroom and controlled environment needs for thousands of customers in the pharmaceutical, electronic, and biomedical industries since 1988. Its’ one-source shopping model eliminates the need to coordinate multiple manufacturers, invoices, and contacts. Valutek offers its customers the best experience

INNOVATIVE SOLUTIONS FOR
CRITICAL ENVIRONMENTS

possible with best-in-class products and superior customer service. Valutek is headquartered in Phoenix, Arizona.
