Valutek Launches Innovative Pre-Wetted Cleanroom Wiper Program

Phoenix, Arizona – (WiredPRNews.com) - [Pre-wetted cleanroom wipers](#) are the most efficient and convenient way to clean and maintain cleanroom surfaces. Companies that use pre-wetted wipers to control cleanroom contamination say they work much better than dry wipers and a spray bottle of solvent.

According to Dr. Howard Siegeman, contamination control expert and author of “Wiping Surfaces Clean”, “Pre-wetted wipers result in better adherence to contamination protocols, reduced wiper and solvent usage, fewer volatile fumes, reduced fire hazards and more uniform application of the solvent.”

[Valutek](#) recently launched an innovative program that allows cleanroom managers to use any type of cleanroom wipe with any solvent chemistry. The cleanroom manager can choose spunlace wipes or polyester wipers with different edge treatments (cut, laser sealed or border sealed) in a wide range of sizes that fit different applications. Once the right wiper is selected the cleanroom manager specifies chemical makeup of the solvent. Valutek makes the wipes to the unique specifications of the customer and ships them without delay. Pre-wetted wipes come in reusable pails that can be refilled. These fully customizable pre-wetted cleanroom wipes give the cleanroom manager greater control over their cleanroom environment with maximum convenience and at a lower cost.

Valutek has been servicing the cleanroom and controlled environment needs for thousands of customers in the pharmaceutical, electronic, and biomedical industries since 1988. Its one-source shopping model eliminates the need to coordinate multiple manufacturers, invoices, and contacts. Valutek offers its customers the best experience possible with best-in-class products and superior customer service. Based in Phoenix, Arizona, Valutek also has operations in Penang, Malaysia and Suzhou, China.

Valutek is a global trusted brand providing its customers control, convenience and value. Valutek can be reached on the web (www.valutek.com) or at 800-763-1250.
